UNIVERSITY TITU MAIORESCU
FACULTY OF INFORMATICS

C.N GHEORGHE VRANCEANU
MATH & INFORMATICS

EXPERIENCE

FRONTEND DEVELOPER
Arnia Software
Dec 2023 - present

- Implemented unit testing for all components and ensured 70% test coverage for the entire repository.
- Created components documentation and mock implementations in Storybook.
- Collaborated closely with backend developers and UX/UI designers to ensure seamless implementation of new features and consistency across multiple sales channels.
- Migrated legacy components and functionalities from Twig to Vue.js.
- Gained proficiency in server-side rendering (Vue.js SSR) practices, enhancing page load speed and overall performance.

INTERN / JUNIOR FRONTEND DEVELOPER
Cegedim
May 2022 - Dec 2023

- Developed and maintained a variety of frontend features and components using Vue.js, JavaScript and some TypeScript to ensure the application is reliable and responsive.
- Refactored legacy code needed for daily processes using JavaScript ES6.
- Built complex dashboards and data tables using Vue.js and related libraries such as Vuetify and AG Grid to display data in a clear and user-friendly manner.
- Gained experience in debugging and troubleshooting issues in a large codebase, including performance optimization and maintaining clean and modular code.
- Collaborated with QA team members to ensure high software quality through unit testing and integration testing.
